

UNITED STATES BANKRUPTCY COURT
EASTERN DISTRICT OF MICHIGAN
SOUTHERN DIVISION

In re:

City of Detroit, Michigan,

Debtor.

Chapter 9

Case No. 13-53846

Hon. Steven W. Rhodes

Order Striking Emergency Motion for Clarification [Docket #299 & #300]

On August 6, 2013, Robert Davis filed a document entitled “Emergency Motion for Clarification of the Court’s July 25, 2013 Stay Order” at Docket #299. The motion does not comply with LBR 9014-1(b)(2) because it does not have attached a completed form “Notice of Motion and Opportunity to Object.” The motion also does not comply with LBR 9014-1(b)(4) because it does not have attached or filed separately “a certificate of service.”

Movant’s Exhibit 2, where the “Notice of Motion and Opportunity to Object” should be attached to Docket # 299 states “NONE [Not required for Emergency/Ex Parte Motions].” Movant is not correct in his assertion that a “Notice of Motion and Opportunity to Object” is not required in this instance. Movant did not comply with LBR 9006-1(b), which is the rule regarding a request for a shortened notice period. Counsel is also referred to this Court’s Order Establishing Motion Procedure [Docket #283] entered August 2, 2013.

Accordingly, the “Emergency Motion for Clarification” [Docket #299] and Exhibits [Docket #300] are hereby STRICKEN, without prejudice to the Movant’s right

to refile the motion and exhibits properly.
